

EDUCATIONAL BACKGROUND

- **TOBB University of Economics and Technology, Ankara** (2016 - 2020)
Bachelor of Engineering Degree, Major in Computer Science
4rd Grade
GPA: 2.93 /4.00
- **Nesibe Aydin Anatolian High School, Ankara** (2012-2015)
Department of Science
GPA: 86,83 / 100

INTERNSHIP EXPERIENCE

- **Software Engineering Intern, September 2019 to December 2019 at JotForm**
 - Team member of a front-end team named Marvel
 - Developed Chrome Extension named JotForm Voice in Vanilla JavaScript.
 - This project is voice recognition extension for JotForm. The user controls the online form through his voice.
 - GitHub: <https://github.com/edizuslu/JotForm-Voice>
 - Demo Video: <https://youtu.be/IV-T9uKOrCg>
 - Developed 3rd party app named Random Submission Generator in React.
 - This project is random submission generator tool of JotForm.
 - GitHub: <https://github.com/edizuslu/JotForm-Submission-Generator>
 - Demo Video: https://youtu.be/DAMnlGtL_Tg
 - Experienced web development process.

- **Software Engineering Intern, January 2019 to April 2019 at ESEN System Integration**
 - Team member of a voice activity detection project
 - Developed neural network algorithms in Python and MATLAB.
 - Designed object-oriented database schema of software and implemented user interface.
 - Contributed to software by integrating algorithms and solving issues.
 - Provided optimization for algorithms by using parallel computing methods.
 - Experienced weekly code review processes.
 - Improved presentation ability by participating weekly meetings.

- **Software Engineering Intern, May 2018 to August 2018 at AYESAŞ**
 - Team member of mission planning software of ANKA Unmanned Aerial Vehicle project.
 - Developed scripts to provide performance measuring tools.
 - Participated in acceptance test and dry run process.
 - Contributed to application by adding new features.
 - Provided user manuals for software and implemented help window.
 - Applied and updated test procedures.
 - Experienced weekly meetings and improved team communication skills.
 - Learned and practiced Agile-Scrum methodology.
 - Used SVN for version control, JIRA for project tracking and DOORS software for requirement management.
 - Developed my skills in writing readable and maintainable code, used a lot of software design patterns, wrote lot of unit tests.

COURSE TAKEN

- Software Engineering and Development Process
- Design Patterns
- Algorithm Analysis and Design
- Database Management Systems and Relational Database Theory
- Artificial Intelligence
- Data Mining
- Human Computer Interaction
- Data Communications and Computer Networks
- Data Structures
- Operating Systems and System Programming
- Object-Oriented Programming
- Computer Organization and Design
- Digital Logic Design
- Programming and Problem Solving
- Discrete Mathematics
- Combinatorics and Graph Theory
- System Programming
- Automata Theory and Formal Languages
- Programming Languages

FURTHER SKILLS

- **Languages:** English: TOEFL ITP 500 (March 2015)
Spanish (Intermediate)
German (Elementary)
- **Skills:**
 - **Industry Knowledge:**
 - Software Development
 - Test Management
 - Machine Learning
 - **Tools & Technologies:**
 - Java, Python, JavaScript, React, C, MySQL, Bash, MATLAB
 - Git, SVN, Jira, Gradle, Heroku, Amazon Web Services
 - Eclipse, PyCharm, Android Studio, Visual Studio Code, Postman, Travis CI
 - Linux, Windows, IOS
- **Certificate:**

Cambridge Certification Authority-Certificate-Java:
<https://drive.google.com/file/d/1t8Q13oZJ5ZCnbPSvEf2KRnrvruOTpg60/view>

Android Developer Certificate:
<https://www.udemy.com/certificate/UC-QX0FDWO9/>

React Developer Certificate:
<https://www.udemy.com/certificate/UC-34efaa50-e278-4719-98fc-1c4549457a54/>

Chess: Advanced - World Chess Federation Rating: 1181

PERSONAL DETAILS

- Date of Birth: 07.08.1997
- Nationality: Turkish
- Qualities: team-worker, hard-working, organized, quick learner, creative, social
